- 4.2. Changes between account management services are performed by the Bank in accordance with the following:

If the Client wishes to change account management service, then he/she must conclude a new account management agreement. If the agreement is concluded before the 15th (fifteenth) day of the given month, the monthly account management fee applicable to the selected, new account management service will be charged with respect to the entire month. If the contract is concluded after the 15th (fifteenth) day of the given month, the monthly account management fee as per the bank account agreement that is valid until the 15th day of the given month will be charged for the entire month. With respect to the settlement of transaction commissions, until the day of signature of the new account management agreement, the commissions of the account management service that is valid until then will be charged, while in the case of transactions executed from the day following the signing of the new account management agreement, the commissions of the new account management service will be charged. The account management service may be changed on a maximum of one occasion per month. At least 14 (fourteen) calendar days must elapse between changes of account management service.

- 4.3. The commissions specified herein apply to services and procedures that are not subject to a separate risk assessment.

- 4.5. The Bank reserves the right to only accept orders that are in compliance with its business policies, and the listed conditions shall be understood as referring only to such orders.

- 4.6. In addition to the listed commissions, any out-of-pocket expenses such as postage, cable, telephone, fax charges etc. incurred in respect of any transaction involving the customer's bank account will be debited from the customer's account held in the relevant currency, as will any justifiably charged cost and commission claims of banks, financial institutions or other institutions involved in the arrangement of the transaction. (This also includes, in the case of outgoing FCY payments to destination countries that use the IBAN international bank account number format, the fee of approx. EUR 5-15, charged by the foreign bank if the beneficiary's account number was indicated incorrectly, or indicated in non-IBAN format, on the payment order.)
- 4.7. In respect of services not mentioned in the List of Conditions – including services performed by special request – we charge commission in accordance with a separate, individual agreement. We will be pleased to provide our customers with information on this.

5. Settlement of fees, costs and commissions – with respect to all bank account services

5.1. Fees, costs and commissions

The Bank will debit any incurred fees, costs and commissions at the time it executes the transaction, except for the following fees, costs and commissions, which the Bank will debit on the last working day of the month:

- Account management fee
- Minimum turnover commission
- Bank account statement transferred via SWIFT (MT940)
- Balance information transferred via SWIFT (MT941)
- Turnover information transferred via SWIFT (MT942)
- Turnover shortfall commission
- Cash pool monthly fee

In the case of fees, costs and commissions debited at the end of the given month, the debit relates to the services provided during the period between the last working day of the previous month and the working day preceding the end of the current month.

5.2. Fees, commissions and costs related to foreign currency transfers

The HUF equivalent of FCY transfer commissions and costs are debited at the time of execution, and any justifiably charged cost and commission claims of banks, financial institutions or other institutions involved in the arrangement of the transaction (e.g. additional fees charged in respect of transfers that require manual processing by them) are debited as and when they arise. In the case of orders where the beneficiary is not within the EEA or that are in a non-EEA currency, if the initiator of the order does not agree to pay the foreign bank charges, the transferred amount will be credited to the beneficiary's account reduced by any fees charged by intermediary banks, which differ in their extent from one bank to the next.

In the case of orders involving conversion, the equivalent of the amount of the order involving conversion is blocked – in the event of the application of an FX commercial rate or an FX rate, then increased by the amount of +1% risk premium – until the rate that is to be applied in the course of execution is known, in order to ensure that there is no shortfall, due to a possible movement in the exchange rate, in the funds required to execute the given order.

The Bank only accepts paper-based FCY transfer orders that are submitted on the appropriate form.

6. Under the fee schedule contained in this List of Conditions, the opening of at most two current accounts may be requested per currency; further accounts may be opened based on separate agreement.
7. The provisions set forth in this List of Conditions must also be observed in all instances where reference is made to the terms and conditions for resident companies.
8. The execution schedule with respect to the individual orders is contained in the Bank's announcements entitled The Bank's Schedule for the Acceptance and Execution of Orders (Banking Timetable), and Acceptance and Execution of Orders (Banking Timetable) for Saturdays as Banking Days, which constitute the latest Annex 1 to the List of Conditions.
